

Palo Alto Community Child Care
Learning, Playing, Growing Together

Wait List Priority

Acceptance into a PACCC program from the waiting list will be based upon the schedule needed compared to the space available, and on the following priorities:

1. Family currently enrolled in a PACCC center
2. Resident of Palo Alto
3. Date of wait list application
4. Non-ambulatory children will always receive priority for the licensed non-ambulatory slots.
5. Child Protective Services referred families will always receive priority.
6. Families on the city/state subsidy program eligibility list will always receive priority for the designated subsidized child care slots at each center, when funds are available.

Special consideration may be given, based on needed mix of age groups, families undergoing crisis, full time working parent(s), neighborhood school (school-age only), or other extenuating circumstance, with approval of the PACCC executive director.
