

Palo Alto Community Child Care

**OPTIONAL FORM**

Dear PACCC Parent or Guardian,

August 1, 2015

The Healthy Schools Act of 2000 (as amended by Assembly Bill 2865, Chapter 865, Statutes of 2006) requires that all schools and child day care centers provide parents or guardians of children who are enrolled at the facility with annual written notification of expected pesticide use at schools and day care centers. We will send out annual notifications each September.

This notification identifies the active ingredient(s) in each pesticide product of expected use at one or more of PACCC's child care centers (see attached). For further information on pesticides and their alternatives go to the Department of Pesticide Regulation's School Integrated Pest Management (IPM) website <http://apps.cdpr.ca.gov/schoolipm/childcare/>.

Parents or guardians may request prior notification of individual pesticide applications at the child care center. Beginning September 1, 2008 people listed on this registry will be notified at least 24 hours before pesticides are applied. Advanced notification is not required in emergency conditions. If you would like to be notified every time a pesticide is applied, please complete and mail the form below to: Palo Alto Community Child Care, 3990 Ventura Court, Palo Alto, CA 94306 ATTN: IPM Coordinator. Notices will also be posted in the parent area from 24 hours before pesticides are applied to 72 hours after the pesticide application.

Please note: PACCC contracts Pest Pro, Pest Control Services, for its regular (bi-monthly) pest control maintenance services. Pest Pro provides its services outside of PACCC's regular child care operating hours, with the exception of emergency conditions.

If you have any questions, please contact Beth Schackne at (650) 493-2361 ext 20.

Sincerely,

Beth Schackne  
*Executive Assistant*  
*IPM Project Coordinator*

**OPTIONAL FORM**

**REQUEST FOR INDIVIDUAL PESTICIDE APPLICATION NOTIFICATION**

I understand that, upon request, Palo Alto Community Child Care is required to supply information about individual pesticide applications at least 24 hours before application. I would like to be notified before each pesticide application at the specific PACCC site listed below.
